INTRODUCTION. MUTUAL BENEFIT OF PARTNERSHIP

The California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000 has provided a unique partnership opportunity for the City of Sacramento, the Sacramento Public Library Authority, the Natomas Unified School District, and the Los Rios Community College District.

To this end, all parties to the agreement respectfully acknowledge the commitment of the parties as follows:

- The Natomas Unified School District will use the opportunity of the joint partnership to enhance its commitment to library services to students at Inderkum High School, beyond what it has been able to do at other schools in the School District where there are not full time on site certificated library media teachers and smaller libraries.
- The Los Rios Community College District will use the opportunity of the joint partnerships to enhance its commitment to library service to students at the Natomas Center beyond what it has done at other Centers of the College where there is no on site library or library services,
- The City of Sacramento, will maximize the funds available to construct the new facility, increasing the size of the original proposed facility from 12,000 square feet to 23,000 square feet as a result of the partnership and state grant funds
- The Sacramento Public Library Authority will maximize the hours of operations of the Library as a result of the partnership operating funds, so that the Library will be open 15 20 more hours per week than comparable branches in the City.

Library services resulting from the partnership as defined in this agreement provide a far greater quantity and improved quality of Library service for the benefit of the citizens of North Natomas and the students and faculty of the School District and College than would be provided with each party acting individually.
